PROFILE SUMMARY

- Salesforce Administrator with hands-on experience in Salesforce CRM, including custom objects, fields, reports, dashboards, validation rules, and business process automation using Flow Builder.
- AWS Certified Cloud Engineer with foundational knowledge of cloud computing, application deployment, monitoring, and cloud infrastructure services.
- Flutter Developer experienced in building cross-platform mobile applications using Dart, Firebase, GetX state management, and modern application architecture patterns.

PROJECTS

1.Student Admission Management System 2026 Salesforce CRM | Custom Objects | Reports | Dashboards | Flow Builder

- Developed a Student Admission Management application using Salesforce CRM.
- Created custom objects including Student, Course, Faculty, and Admission.
- Configured custom fields, page layouts, validation rules, and lookup relationships.
- Automated admission approval and notification processes using Salesforce Flow.
- Generated reports and dashboards to monitor admissions, enrollments, and course statistics.

2.CI/CD Pipeline with Monitoring for Logistics Platform 2026 AWS | Docker | Kubernetes | Jenkins | GitHub Actions | Prometheus | Grafana

- Designed automated CI/CD pipelines for logistics tracking services.
- Containerized applications using Docker and deployed them on Kubernetes (EKS).
- Automated deployments using Jenkins and GitHub Actions.
- Implemented monitoring and alerting using Prometheus and Grafana.

3.Automated CI/CD Infrastructure Deployment 2025 AWS | Terraform | Docker | Kubernetes | GitHub Actions

- Built an end-to-end CI/CD pipeline for automated deployments.
- Provisioned AWS infrastructure using Terraform Infrastructure as Code.
- Deployed Dockerized applications on Kubernetes clusters.
- Automated builds, tests, and deployments using GitHub Actions.

EXPERIENCE

Cloud & Flutter Developer Intern Sep 2025 – Feb 2026 Coreverse Technologies Pvt Ltd

- Developed cross-platform mobile applications using Flutter and Dart.
- Implemented scalable architecture using GetX state management and MVC design pattern.
- Integrated Firebase services including Firestore and Authentication.
- Designed responsive user interfaces and reusable widgets.
- Participated in testing, debugging, and application performance optimization.
- Collaborated with team members using Git and GitHub version control.

ACHIEVEMENTS

- 1st Place – AWS Cloud Quest Challenge
- Built a Student Admission Management System using Salesforce CRM.
